

PROJECT 2: AUTOMATED COPYWRITING & TONE TRANSFORMER

Submitted By

Diksha Vashistha

Domain

Generative AI

Objective

The objective of this project is to build an automated copywriting system that generates platform-specific marketing content using dynamic prompts, user-defined variables, and tone transformation techniques.

1. Introduction

Marketing content varies across different platforms. This project demonstrates how Generative AI and Prompt Engineering can be used to automatically generate customized advertisements based on:

- 1.Product Name
- 2.Platform
- 3.Tone

2. Tools & Technologies Used

1. Python
2. ChatGPT
3. Prompt Engineering
4. Microsoft Word

3. Project Workflow

User Input

↓

Product Name + Platform + Tone

↓

Python Prompt Generator

↓

Dynamic Prompt Creation

↓

Generative AI Processing

Marketing Copy Generation

4. Python Implementation

```
product = input("enter product name:")
platform = input("enter platform name:")
tone = input("enter the tone:")
if platform == "instagram":
    print("instagram ad")
    print(f"""
    🔥 introducing {product}!
    experience innovation like nnever before.
    Tone : {tone}
    #innovation #newproduct #exciting
    """)
elif platform == "linkedin":
    print("linkedin ad")
    print(f"""
    introducing {product}
    a professional solution designed for modern users.
    tone : {tone}
    #professional #innovation #newproduct
    """)
elif platform == "email":
    print("email ad")
    print(f"""
    discover {product}!
    hello,
    we are excited to introduce {product}, a revolutionary solution
    for your needs.
    grab urs today!
    tone : {tone}
    """)
else:
    print("invalid platform")
```

5. Dynamic Prompt Template

Generated Prompt:

```
11 Generate a marketing advertisement suitable for the selected platform and
12
13 Platform Rules:
14 - Instagram: short, catchy, hashtags
15 - LinkedIn: professional
16 - Email: include subject line
17
18 Output only the advertisement.
19 """
20
21
22 print(prompt)
```

Enter Product Name: shoes
Enter Platform: LinkedIn
Enter Tone: casual

You are an expert marketing copywriter.

Product Name: shoes
Platform: LinkedIn
Tone: casual

Generate a marketing advertisement suitable for the selected platform and tone.

Platform Rules:

- Instagram: short, catchy, hashtags
- LinkedIn: professional
- Email: include subject line

Output only the advertisement.

Example:

You are an expert marketing copywriter.

Product Name: shoes

Platform: LinkedIn

Tone: casual

Generate a marketing advertisement suitable for the selected platform and tone.

6. Test Cases

Test Case 1

Input:

- Product: shoes
- Platform: Instagram
- Tone: Exciting

Generated Prompt:

Enter Product Name: adidas shoes

Enter Platform: instagram

Enter Tone: exciting

You are an expert marketing copywriter.

Product Name: adidas shoes

Platform: instagram

Tone: exciting

Generate a marketing advertisement suitable for the selected platform and tone.

Platform Rules:

- Instagram: short, catchy, hashtags
- LinkedIn: professional
- Email: include subject line

Output only the advertisement.

AI Generated Output:

 ⚡ STEP INTO YOUR ERA.

Every legend starts with a single step — make yours count.

adidas shoes aren't just footwear. They're fuel. They're fire. They're *you*, unleashed.

Move faster. Jump higher. Live louder.

Screenshot:

Test Case 2

Input:

- Product: FitTrack Smartwatch
- Platform: LinkedIn
- Tone: Professional

Generated Prompt:

Enter Product Name: fittrack smartwatch

Enter Platform: linkedin

Enter Tone: professional

You are an expert marketing copywriter.

Product Name: FitTrack smartwatch

Platform: linkedin

Tone: professional

Generate a marketing advertisement suitable for the selected platform and tone.

Platform Rules:

- Instagram: short, catchy, hashtags
- LinkedIn: professional
- Email: include subject line

Output only the advertisement.

AI Generated Output:

Your health is your greatest professional asset. Don't leave it unmanaged.

The **FitTrack Smartwatch** gives driven professionals real-time health insights, seamless productivity tracking, and boardroom-ready design — all from your wrist.

Work smarter. Perform better. Lead stronger.

Screenshot:

Test Case 3

Input:

- Product: MacBook Pro
- Platform: Email
- Tone: Friendly

Generated Prompt:

Enter Product Name: Macbook pro

Enter Platform: Email

Enter Tone: Friendly

You are an expert marketing copywriter.

Product Name: Macbook pro

Platform: Email

Tone: Friendly

Generate a marketing advertisement suitable for the selected platform and tone.

Platform Rules:

- Instagram: short, catchy, hashtags
- LinkedIn: professional
- Email: include subject line

Output only the advertisement.

AI Generated Output:

Subject: Your Dream Laptop is Here! 📁🔔

Hey there!

Meet the **MacBook Pro** — powerful, beautiful, and ready to make your work (and play) so much more enjoyable.

✅ Lightning-fast performance ✅ All-day battery life ✅ Stunning Retina display

Your best work starts here. 😊

7. Results & Analysis

Observations:

1. Instagram content was short and hashtag-oriented.
2. LinkedIn content was professional and business-focused.
3. Email content included greetings and persuasive messaging.
4. Different tones significantly changed the style of generated content.

8. Future Scope

Future improvements may include:

- OpenAI API Integration
- Gemini API Integration
- Support for Facebook and Twitter
- AI Image Generation
- Multilingual Content Generation
- Sentiment-Based Marketing

9. Conclusion

This project successfully demonstrated automated copywriting using dynamic prompt generation and Generative AI principles. The system generated customized marketing content based on user inputs and adapted its output according to platform requirements and selected tone.
